

Technical Assistance

Since 1979, Trickle Up has helped over 1.5 million people living in extreme poverty and vulnerability advance their economic and social well-being. To help graduate the next 1.5 million, we are providing implementing partners with the technical expertise to address the needs of the world's most vulnerable people.

Graduating Out of Poverty

Trickle Up's approach, called Graduation, is a deliberately sequenced and time-bound program that combines careful participant selection, market research, coaching, savings, training, and livelihood planning to build a ladder of support for participants to rise out of poverty. With over 335,000 participant households having graduated out of poverty since 1979, Trickle Up's work has spanned the Americas, Africa, and Asia.

Hand in Hand

Trickle Up's global impact would not be possible without its 38 local and global implementing partners, from community based organizations and national governments to international NGOs.

AMERICAS

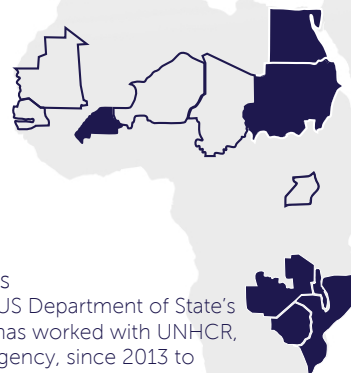

Costa Rica, Guatemala, Ecuador, Nicaragua, Mexico, Paraguay

MINISTRY OF PLANNING | Paraguay
Trickle Up and the Ministry are improving cash transfer and food security programs through a Graduation intervention targeting ultrapoor indigenous households and people living with disabilities.

AFRICA

Burkina Faso, Chad, Egypt, Malawi, Mauritania, Mozambique, Niger, Senegal, Sudan, Uganda, Zambia, Zimbabwe

UNHCR | Various
Supported by the US Department of State's BPRM, Trickle Up has worked with UNHCR, the UN Refugee Agency, since 2013 to adapt Graduation to its operations in various contexts, working with local staff to help refugees in Burkina Faso, Costa Rica, Ecuador, Egypt, Malawi, Mozambique, Sudan, and Zimbabwe.

ASIA

Bangladesh, India, Vietnam

CONCERN | Bangladesh
Trickle Up is working with Concern to empower ultra poor women and youth through social protection mechanisms and financial inclusion.

How We Support Partners

Trickle Up supports implementing partners through various technical assistance services that span a three-phase process: research, design, and implementation. Throughout an engagement, Trickle Up adjusts its technical assistance to proactively evolve around a partner's mandate and approach. This is key to providing consistent, coordinated, and cohesive technical contributions.
